Did you know that if your child has an accident or illness in your absence except in the case of injuries which threaten life or limb patients under the age of 18 years old must have a parent or legal guardian sign a consent form before treatment can be given in a hospital emergency room? You can save time and the concern of the person to whom you entrust the care of your child should this be necessary during your absence. It is important to include any allergy, illness history and medications that your child is taking as well as the name of the child's physician and the last tetanus immunization.
